

I Can Barely Breathe

Just Surrender

Hey, tell me girl, what were you thinking?
Hit me with something that'll make this worth my time
Take it back, take it all back, now
Every promise I made was just another mistake with you
Tell the truth if you think that you can take it
But I know, you won't, I never felt so all alone
But when it was safe I turned my back
And the blade came through
And I can barely breathe
And I can barely breathe
And I can barely breathe
Stand on top of the roof top wondering
Is it good? Yeah, it's good for jumping
Take back every word you said
'Cause I can barely breathe
(And I can barely breathe)
Tell me now, can you still taste him?
'Cause you know you'll never wash your hands of this
Take it back, take it all back, now
Every drunken kiss that landed on his lips from you
Make a move if you think that you can make it
But I know, you won't, I never felt so all alone
But when it was safe I turned my back
And the blade came through
And I can barely breathe
And I can barely breathe
And I can barely breathe
Stand on top of the roof top wondering
Is it good? Yeah, it's good for jumping
Take back every word you said
'Cause I can barely breathe
(And I can barely breathe)
Stand on top of the roof top wondering
Is it good? Yeah, it's good for jumping
Take back every word you said
'Cause I can barely breathe
(And I can barely breathe)
Hold your tongue
You know nothing about this
Don't even get involved
I hope you watch as I'm falling down
Because you are the reason I am hitting the ground
You could be the one that breaks me
You will be the one that breaks me, now
I hope you know that every tear you cried
There's a memory left from when you watch me die
You know I'll haunt your dreams
With all these pieces that you stole of me, of me
Stand on top of the roof top wondering
Is it good? Yeah, it's good for jumping
Take back every word you said

'Cause I can barely breathe
(And I can barely breathe) Stand on top of the roof top wondering
Is it good? Yeah, it's good for jumping
Take back every word you said
'Cause I can barely breathe
(And I can barely breathe)
