

# Die A Little

## YUNGBLUD

(from "13 Reasons Why (Season 3)" soundtrack)Just went life gets messed up

Just when you can't turn back

Sometimes life gets like that

It's my addiction

Take my foot off the gas

Step on paper-thin glass

Play the music and dance

It's my addiction'Cause we are the lonely ones

We are the lonely ones

We are the lonely ones

All you got to do is die a little, die a little

Die a little to survive

Help me take my precious time

All you got to do is cry a little, cry a little

Cry a little to be fine

Help me figure out my mindYou help me sleep at night

Help me turn off the lights

Calm down my obsessed mind

You're my religion

You can follow the lines

Piece by piece, time by time

Hold my hands when I'm blind

Like a magicianWe are the lonely ones

We are the lonely ones

We are the lonely ones

All you got to do is die a little, die a little

Die a little to survive

Help me take my precious time

All you got to do is cry a little, cry a little

Cry a little to be fine

Help me figure out my mindWe are the lonely ones

We are the lonely onesAnd just when life gets messed up

Just when you can't turn back

Sometimes life gets like that

It's my addiction
