

# Another Believer

Rufus Wainwright

Hello, I got something to tell you  
But it's crazy, I got something to show you  
So give me just one more chance, one more glance  
And I will make of you another believer  
Guess what? You got more than you bargained  
Ain't it crazy? You got more than you paid for  
So give me just one more chance, one more glance  
One more hand to hold  
You've been on my mind, though it may seem I'm fooling  
Wasting so much time, though it may seem I'm fooling  
What are we gonna do? What are we gonna do about it?  
Another believer  
So then, that is all for the moment  
Until next time, until then, do not worry  
And give me just one more chance, one more glance  
And I will make of you, yeah I'm gonna make of you another believer  
You've been on my mind, though it may seem I'm fooling  
Wasting so much time, thought it may seem I'm fooling  
What are we gonna do? What are we gonna do about it?  
Hello, I got something to tell you, ooh, another believer  
Hello, I got something to show you, ooh, another believer  
You've been on my mind, seem I'm fooling  
Wasting so much time, one more time  
You've been on my mind, though it may seem I'm fooling  
Wasting so much time, though it may seem I'm fooling
