

# Own World

## Chanel West Coast

(Verse)

Been mooving now  
Chasing my dreams  
To be moving out  
Ain't what it seems  
I'm living out  
This what it means  
Do not need a crown  
I'm my own team  
Can you feel me now?  
I'm my own queen  
Don't need a crown?  
Do my own thing  
I live in the cloud(Hook)Own world (6x)  
I be in my own world  
Own world (6x)(Verse)Walkin' on the moon slow  
Runnin' on the side, yeah  
Somewhere is the truth, so  
Let you know when I get there  
I don't know whether how the cold is better  
I just know never is the same as forever  
I live to be better  
Stay the course like leather  
I'm lost whatever  
And I'mma boss whenever  
Take a stand when I want to  
Take your hand when I need to  
Spend a grand just to see you  
Life is grand when you see through  
Roam the land like a breeze do  
It came in like a least true(?)  
That's the can, and it can do  
One reason that I be true(Hook)
