

# No Retreat

## Space Eater

Till the end of  
No surrender and no retreat  
No surrender and no retreat  
No surrender and no retreat  
No surrender and no retreat  
No retreat, y'all ready?  
Yo, aiyo potent  
Straight up with the force to keep fighting  
Samson, Atlas, Colossus, Titan  
In the dark night the torch steady lightens  
I'm strong, cast iron heart of the lion  
A mighty foundation to a tower of power  
With the energy needed to turn the seed into a flower  
Fortified type, sturdy sound constructions  
Make rappers duck down  
Like I'm Boogie Down Productions  
I can tell they're weak, delicate  
It ain't hard to sell when I speak  
Over rock-hard breaks never riddle little beats  
See me on rap city B E T spit graffiti  
Present a full section of flavors that's robust  
Dilated Peoples my brother we gon' crush  
Leave up support, insulate your stage  
I got self control but can't hold the rage  
Many ya products, gimmicks wit' time limits  
I give you what you want plus put my mind in it  
Rocka Iriscience trained to go the length  
Finding all terrain thin tanked in full strength  
No surrender and no retreat  
Stand my ground dig in with both feet  
No surrender, no turning, no cheat, no retreat  
Stand my ground dig in with both feet  
No surrender, no turning, no cheat, no retreat  
Stand my ground dig in with both feet  
No surrender, no turning, no cheat, no retreat  
Stand my ground dig in with both feet  
No surrender and no retreat  
Uh, uh, yo, worldwide  
From great heights we take Paris by night

And L.A. by day from sonic doodalay espy tight  
Twelve hundred tech me sharp cut and free  
Detonate the drums heat the plastique  
That's a dangerous man  
Who can speak with his hands  
Watered down lyrics on dirty tracks turned to sand  
To sink in better watch the the X that you inkin'  
Or on so disrespect and step on my lawn  
Pass the gate insulate till sound deton's  
Twelve ten and debt never met chapter eleven  
My fam's my strength my pops I got my aim from  
[Incomprehensible]One's for breath, the rest as you feel it  
Fuck what you've done you've got skills reveal it  
Team with Iriscience pro's with flows  
I risk my life on flights for hype shows  
Rest assure vaccines are far from cures  
And plant some new shit that hit me two weeks into tour  
But I'll adapt guaranteed make it through  
Evidence, Iriscience and my man Babu, worldwide  
Dilated, I told all these corny mothafuckas  
What a no retreat sound like, no surrender and no retreat  
Stand my ground dig in with both feet  
No surrender, no turning, no cheat, no retreat  
Stand my ground dig in with both feet  
No surrender, no turning, no cheat, no retreat  
Stand my ground dig in with both feet  
No surrender, no turning, no cheat, no retreat  
Stand my ground dig in with both feet  
No surrender and no retreat  
Never givin' up, never givin' in, never holdin' back, never runnin'  
No cowardly acts dumpin' no retreat  
Constantly moving ahead needs to see the  
Psychological diabolical shrimp filleted it eat ya  
Now, I hate it 'cuz the flavor is gone cater to those  
Lyrics are bomb savor the shows wait for the pro's  
Beats made it with flows hated by foe's  
Never surrender your soul and rope with the cold  
Others are makin' but sadly mistakin' the straight broke  
In the end with no cheddar of bacon that's left poked  
Pictures afloat over remote notes and potent mic's  
Break you up put you in the pipe light you up  
To the night, shadows are runnin'  
Around peepin' step out of bounds  
And watch a nigga get put to sleep  
But never recover never surrender

I know you hate it quit us get eliminated  
Fuckin' with Dilated  
No surrender and no retreat  
No surrender and no retreat  
No surrender and no retreat  
N-n-no surrender and no retreat  
It's Dilated People, [Incomprehensible]  
Ha, ha, ha, ha  
Ha, two thousand
