Overcome

Face to Face

Fake, even when you're sure this time it's real
Pain, isn't just defined by what you feelIt isn't so wrong
To be where you're from
The image of what you are
Can be overcomeAngst, you'd cut out your heart to spite your mind
Stay, even if it's just a waste of timeIt isn't so wrong
To be where you're from
The image of what you are
Can be overcomeI let my guard down
