

# Overcome

## Face to Face

Fake, even when you're sure this time it's real  
Pain, isn't just defined by what you feel It isn't so wrong  
To be where you're from  
The image of what you are  
Can be overcome Angst, you'd cut out your heart to spite your mind  
Stay, even if it's just a waste of time It isn't so wrong  
To be where you're from  
The image of what you are  
Can be overcome I let my guard down
