

Splash, Turn, Twist

Jimmy Eat World

With a turn and a twist
She gets her wish
Just a smile makes her
Who she wants
It's the smoke from the spark
When the sulphur hits
It turns into an inspiration
Well, so much for see you around
So much for seeing at all
Don't leave me in the trivia
With a splash and a twist
We'll both get pissed
And leave after
We hear our songs
It's the smoke from the spark
When the sulphur hits
She'll just remember
She felt something
Well, so much for see you around
Yeah, so much for seeing it all
Don't leave me in the trivia
Now with a turn and a twist
She gets her wish
You give it a name
And then that's how it stays
With a turn and a twist
She gets her wish
Over the threshold
Over and out
Now with a turn and a twist
She gets her wish
Yeah, you give it a name
And baby, that's how it stays
With a turn and a twist
She gets her wish
Over the threshold
Over and out, yeah
Don't leave me in the trivia
Now with a turn and a twist

She gets her wish
You give it a name
And then that's how it stays
With a turn and a twist
She gets her wish
Over the threshold
Over and out
Now with a turn and a twist
She gets her wish
Yeah, you give it a name
And baby then that's how it stays
With a turn and a twist
She gets her wish
Over the threshold
Over and out
Now with a turn and a twist
She gets her wish
And with a turn and a twist
She gets her wish
Now with a turn and a twist, yeah
With a turn and a twist, yeah
With a turn and a twist
She gets her wish
