

# Schrodinger's Cat

## Tears for Fears

Last train to Norwich, last train to Norwich  
Last train to Norwich, last train to Norwich

Last train to Norwich, last train to Norwich Yea summer days that blind your face

Will soon be dead and gone

Better get it on

Tuned to a day the baby against the world, yea You took the best seat will you risk it

When the chips were down

Better make it long

Schrodinger's cat is dead to the world You say your cat sees in the dark

You criticize the play and isolate the box

I always knew you were a scientist at heart Just as the breeze with speed and build

You sat upon the fence

Clucking like a chicken making perfect sense Pass that gun, hand me that knife

Man's little monster has been brought back to life You say your cat sees in the dark

You criticize the flow and isolate the box

I always knew you were a scientist at heart

I always knew you were Last train to Norwich, last train to Norwich

Schrodinger's cat is dead to the world Last train to Norwich

Last train to Norwich

Last train to Norwich

...
