You've Changed

Galactic Cowboys

Idolized- for years we were like glue
Paralyzed- from looking up to you
Terrified- to open up our lives
Loving eyes- cut through me like a knifeIcy fingers shake my hand
Frozen shoulders leave me coldYou've changed
And I know we'll never be the same
You've changed. You've changed.
And the love we lost is such a shame
You've changed. You've changed.From a confidant to someone strange
You've changed. You've changed.
Agonized- rejection unexplained
Who was I to think we were the same?
