Flood River Blood

Communic

Our time was short
But unbreakable bonds in a flood of blood
This link to the past
Is forever a totem in my lifeThis place that we visit
Our secret that we groom and cherish
This pain I don't want to forget
Always a peace within meThrough sleepless nights
Cold-hearted facts of life
The meaning of it all so unfair
This ride I did not foreseeFlood river blood
No time to waste
There was nobody there that could save you
Nobody there to help meFlood river blood
With power to breathe life
If there was a God he would have saved you
But now I have lost my beliefThis token of love
All I have within my heart will be remembered
Your skin so cold
So cold, a touch so hard to explainI have now found peace
A conclusion to where we inherit from
We can't rule over life
Down into the earth we will followThrough sleepless nights
Cold-hearted facts of life
The meaning of it all so unfair
This ride I did not foreseeFlood river blood
No time to waste
There was nobody there that could save you
Nobody there to help meFlood river blood
With power to breathe life
If there was a God he would have saved you
But now I have lost my beliefThere is nothing here that can take me lower
Lower than this place I've already seen
Take pride in what's in your heart
Take advantage of this trialThrough sleepless nights
Cold-hearted facts of life
The meaning of it all so unfair
This ride I did not foreseeFlood river blood
No time to waste
There was nobody there that could save you

Nobody there to help meFlood river blood
With power to breathe life
If there was a God he would have saved you
But now I have lost my belief
