Cody Simpson

She looks good in the morning sun
But even better with a tie-dye on
Feather in her head, flower in her hair
And I love the way that she just don't care
She got a cat that she calls Tattoo
She got herself a couple tattoos too yeah
And when she drinks you know she love a cigarette
Got a little black pearl hanging round her neck
No, she ain't one for commotion
She living just like the ocean
She just wanna be free
Just let her be
I'll take a ride on the breeze
Why can't you see?
She just wanna be cool
And doing what she do
Her bare feet, swaying to a laid back beat
She just wanna be free
She blowing smoke rings in my head
A kaleidoscope of dreams running round by bed
And I know, I know I know I know
We gonna take it slow
The kind of soul that can do no wrong
A little salt to the earth that I blew so wrong
And I know, I know I know I know
She gonna take it slow
She just wanna be free
Just let her be
I'll take a ride on the breeze
Why can't you see?
She just wanna be cool
And doing what she do
Bare feet, swaying to a laid back beat
Baby doll, she just wanna be free
She like to keep it in motion, woah
She's steady flow like the ocean
Oh, she just wanna be free, so free
Just let her be
I'll take a ride on the breeze, baby please
Why can't you see?
She just wanna be cool
Doing what she do
Bad feed swaying to a laid back beat
She just wanna be free
