

Back Into The Groove

2 Unlimited

Back, back

Back, back

Oh yes, we're back, we're here to remind you

Oh yes, we're back and we're here to stay

We're on attack, leave your worries behind you

We're gonna party 'til the break of day

A new sound, a new celebration

Just relax your mind, relax your mind

We'll get down from nation to nation

Everybody's gonna have a real good time

'Cause we are back into the groove

So come on, let's see you move all night

Yes, we are back into the groove

Let's get in the party mood tonight

We took some time to get it together

Right down the line to get it complete

'Cause now's the time we're back and we're better

We're even better than we used to be

A new sound, a new combination

We'll revive your mind, revive your mind

In every town from station to station

Everybody's gonna have a real good time

'Cause we are back into the groove

So come on, let's see you move all night

Yes, we are back into the groove

Let's get in the party mood tonight

We're gonna be back, back into the groove, yeah

Yes, we're back down in the groove

Back

Yes, we're back down in the groove

Back

Back, back

'Cause we are back into the groove

So come on, let's see you move all night

We're gonna be back, back into the groove

Yes, we are back into the groove

Let's get in the party mood tonight

Hay yeah yeah, back into the groove

'Cause we are back into the groove
So come on, let's see you move all night
Let's see you move, yeah, oh we're back
Yes, we are back into the groove
Let's get in the party mood tonight
'Cause we are back into the groove
So come on, let's see you move all night
Yes, we are back into the groove
