

Together

Ted Nugent

Summertime
Summer days and different ways of loving you
Starry skies
Starry nights and northern nights are shinin'
The crystal ball
Showed me all there was to see
Your time, and mine belong together
Together.....Many times
Wanting you and needing you
Yes all the time
Many nights
Loving you and holding you
And feelin' fineThe crystal ball
Showed me all there was to see
Your time and mine belong together
Together.....Thinkin' back
Bout the time we had along the ways
Oh! summertime
You've gone to cloudy skies
And rainy days
The crystal ball is on and I
The vision seems less clear tonight
Your time and mine belong together
