BFF

Clem Snide

Trust me you don't want to know how I really feel
I'd like to enjoy this meal
I don't want to talk anymore
About the work that we, we must get done today
Well I guess what I mean to say
What if what I want is, and what if what I need is
Just a little more than all your love
All your love, all your love
Trust me you don't want to know how I really feel
I knew when we made this deal
That you had a hole in your heart
And if I crawl inside maybe things wouldn't seem so gray
Well I guess what I mean to say
What if what I want is, and what if what I need is
Just a little more than all your love
All your love, all your love
Just a little more than all your love
All your love, all your love
All your
