

New York City Girls

Reverend Horton Heat

Well New York City girls are pretty
Man I got to get me one
In New York City girls have style
And they're a lot of fun
And they're a lot of fun
And they're a lot of fun
And they're a lot of fun Women in their solos oh so nice
Not far from downtown
A subway rides a dream away
And they'll show you around
And they'll show you around
And they'll show you around
And they'll show you around New York City
New York City girls girls
New York City
New York City girls girls girls Well alabaster ankle
Jet black shoe
Making me act like a clown
From the lower east side all the way uptown
They're just walking around
They're just walking around
They're just walking around
They're just walking around New York City
New York City girls girls
New York City
New York City girls girls girls city girls girls girls girls
