

Somebody New

Joywave

With my eyes on the prize
Not a thing to my name
With my head up in the clouds
And my body a waste

Don't want to ever wake up
Don't want to ever wake up, I don't
Don't want to ever wake up
Next to somebody new

With my eyes to the south
And my brain up in space
Flip my nervous hips around
I'm a step out of sync
