# Roses

## Seether

You feed this disease which you shelter underneath the scars
And dream of better things rendered helpless by those wicked charms
But please don't believe when I say it's hard to breatheSave me
Even as you break me
Every time you rape me
Leave me coming all undonePraise me
Turn your back and hate me
Every time you waste me
Keep me underneath your thumbYou bleed on the sheets, whisper softly how you love the stars
Then plead on your knees, pledge your promises to do no harm
But please just let me be, I still find it hard to breatheSave me
Even as you break me
Every time you rape me
Leave me coming all undonePraise me
Turn your back and hate me
Every time you waste me
Keep me underneath your thumbSave me
Even as you break me
Every time you rape me
Leave me coming all undonePraise me
Turn your back and hate me
Every time you waste me
Keep me underneath your thumbSave me
Don't turn your back and break me
Every time you rape me
Leave me coming all undone
