

# Roses

## Seether

You feed this disease which you shelter underneath the scars  
And dream of better things rendered helpless by those wicked charms  
But please don't believe when I say it's hard to breathe Save me  
Even as you break me  
Every time you rape me  
Leave me coming all undone Praise me  
Turn your back and hate me  
Every time you waste me  
Keep me underneath your thumb You bleed on the sheets, whisper softly how you love the stars  
Then plead on your knees, pledge your promises to do no harm  
But please just let me be, I still find it hard to breathe Save me  
Even as you break me  
Every time you rape me  
Leave me coming all undone Praise me  
Turn your back and hate me  
Every time you waste me  
Keep me underneath your thumb Save me  
Even as you break me  
Every time you rape me  
Leave me coming all undone Praise me  
Turn your back and hate me  
Every time you waste me  
Keep me underneath your thumb Save me  
Don't turn your back and break me  
Every time you rape me  
Leave me coming all undone
