

# Fall Into Me

## Emerson Drive

Right here waiting, staying strong  
Come and fall into me You say you've turned it off, hid your heart upon a shelf  
Scared of what it might cost to take it down for someone else  
'Cause loving him you lost too much of yourself  
Baby can't you see that he's not me And I need you to know you can fall into me  
That my arms are wide open and will always be  
Right here waiting, staying strong  
Come and fall into me I'll follow any road anywhere to get to you  
I'll open up my soul if that's what you need me to do  
Now baby it's your move all you've got to do  
Is believe in love, just believe in us And I need you to know you can fall into me  
That my arms are wide open and will always be  
Right here waiting, staying strong  
Come and fall into me Just believe in love  
Just believe in us Baby I need you to know you can fall into me  
That my arms are wide open and will always be  
Right here waiting, staying strong  
Come and fall into me Come and fall into me  
Baby fall into me
