Advisory - the following lyrics contain explicit language:

Feels like I'm flying
Wings made of light
Brand new and shinin'
Like a shot rung out through the night A heart that beats
An incredible machine
Made of blood and love
And hope and lust and steam Calling
Calling
Calling Feels like I'm floating
Weightless in flight
Planets exploding
As the soul and gravity fight A heart that beats
An incredible machine
Made of blood and love
And hope and lust and steam Calling
Calling
Calling Lifted higher, mercury skies above
Calling
Water fire burning a sign of love A heart that beats
An incredible machine
Made of blood and love
And hope and lust and steam Calling
Calling
Calling
Calling
