Remembering

Midnight to Twelve

Have you ever felt alone?
Have you ever needed someone?
Have you ever gave yourself...to anyone?
And I can't feel when I'm away
I'm left to count down the days
I'm left to count down the days

Remembering
The two of us
Never gonna be too far away

Remembering
The two of us
Never gonna be too far away

And I can't feel when I'm away
I'm left to count down the days
And in my mind I can't erase
How much I need your embrace

Each and every day that goes by
Makes me realize I need you
Take a tear from your eyes...I'll be home soon
And I can't feel when I'm away
I'm left to count down the days
I'm left to count down the days

Remembering
The two of us
Never gonna be too far away

Remembering
The two of us
Never gonna be too far away

And I can't feel when I'm away
I'm left to count down the days
And in my mind I can't erase
How much I need your embrace

Remembering
The two of us
Never gonna be too far away

Remembering
The two of us
Never gonna be too far away

And I can't feel when I'm away
I'm left to count down the days
And in my mind I can't erase
How much I need your embrace
