

When I'm With You

Jimmy Robbins

Wake up thinking of you
Sun shine painting the room alive, alive
crash crash inside my head
like a wave in the ocean
I cant write, I can't write
Cause I need you here
right here, right now
Lets act now talk it out
Cause when I'm with you
I feel like I got nothing to prove
If only you could share in the view
And feel the way that I do now
When I'm with you
theres not a chance that I wouldn't take
To be with you and feel this way
and feel the way that I do not
When I'm with you
I shut, weep without thinking
take that, take that chance
on me, on me
get close, feel my reaction
surrender everything to me, to me
cause I need you here
right here, right now
Lets act now talk it out
cause when i'm with you
I feel like I got nothing to prove
If only you could share in the view
and feel the way that I do now
When I'm with you
Theres not a chance that I wouldn't take
To be with you, and feel this way
and feel the way that I do now
When I'm with you
I'll be the one you hold
Forever yours to keep
You're everything I know
Your heart is safe with me
I'll be the one you hold

forever yours to keep
you're everything I know
When I'm with you
I feel like I got nothing to prove
If only you could share in the view
and feel the way that I do now
Cause when I'm with you
I feel like I got nothing to prove
If only you could share in the view
and feel the way that I do now
Cause when I'm with you
Theres not a chance I wouldn't take
To be with you and feel this way
and feel the way that I do now
When I'm with you
When I'm with you
Oh, when I'm with You
