

# Pusher

## Walking Shapes

Plane overhead do you see?  
Views that we share from rooftops  
    Trees blowing south  
I've become your bad guy

I don't want to drown in silence  
Innate fears to crown my sadness

    Smile, remembrances of a  
    Brighter moment that we shared  
    Weight of words  
    Only fear  
I've become your bad guy

I don't want to drown in silence  
Innate fears to crown my sadness
