# Madness

## Will Young

I know that you're thinking 'bout the future
Now the message is clear
Everything I'm looking for
But I ain't gonna find it in here, in here
All this time I've waited for a savior
For somebody who cares, who cares
I don't need, I don't need
I don't need to evolve
I just need some control
Baby, I just keep thinkin' that I need saving
Nobody ever seems to question lately
Am I the only one?
I can't stop this madness going on
It's crazy
The way I'm feeling I may never make it
Each way I turn I see the same old faces
I get the picture that I can't stop this madness going on
The world is talking
I can hear them when I'm turning in bed, in bed
I hear what they're saying
And they're praying for a man on the ledge
I don't need, I don't need
I don't need to evolve
I don't need a new soul
I don't need a new soul
I just keep on spinning
From the madness going on in my head, my head
Baby, I just keep thinkin' that I need saving
Nobody ever seems to question lately
Am I the only one?
I can't stop this madness going on
It's crazy
The way I'm feeling I may never make it
Each way I turn I see the same old faces
I get the picture that I can't stop this madness going on
Stay what you're staying for
Say what you're mad about
Make it impossible
Run to you and

Love in a perfect world
Play in a broken road
Lift up your heart of heart
Choose your something
Give 'til you got it all
Pick up the photograph
All that your sad about
I'm still waiting
For better things, for better times
From this madness inside
Baby, I just keep thinkin' that I need saving
Nobody ever seems to question lately
Am I the only one?
I can't stop this madness going on
It's crazy
The way I'm feeling I may never make it
Each way I turn I see the same old faces
I get the picture that I can't stop this madness going on
Baby, I just keep thinking that I need saving
Nobody ever seems to question lately
Am I the only one?
I can't stop this madness going on
It's crazy
