

I Shine, You Shine

Fabulous

Them other niggas is cool
But I just got that glow, baby
You can't miss me, ha, ha So If I shine you shine, shine
If I shine you shine
So If I shine you shine, shine
If I shine you shine, shine Everybody we gon' party like rock stars
Then we ball till we fall like all stars
It's okay we can stay at a five star
Then we gon' get it on like porn stars 'Cause if I shine you shine, shine
If I shine you shine, shine
If I shine you shine, shine
Shorty, I shine you shine, shine Aiyo, my life's like a movie good role so far
Stick to the script you could be my co star
I got a glow par, she'll be in the Solar
(Where you get it from boo?)
I don't even know ma We played Lo Bar on the dance floor, nah
V.I.P.s where the niggas gettin' dough are
Rap star, trap star ball player, pro stars
Reach for the stars that's the way to go ma I'm in the cut the one that leave no scars
Dark shades by D I O R
They watchin' me they know a fella dope
It's like star gazing without a telescope Shinin' like rims are, sharper than gem star
We runnin' on mills like we in a gym ma
It was thick but they papers gettin' slim ma
Faster than Anna Nicole did on the trim spa So If I shine you shine, shine
If I shine you shine
So If I shine you shine, shine
If I shine you shine, shine Everybody we gon' party like rock stars
Then we ball till we fall like all stars
It's okay we can stay at a five star
Then we gon' get it on like porn stars 'Cause if I shine you shine, shine
If I shine you shine, shine
If I shine you shine, shine
Shorty, I shine you shine, shine I'm killin' 'em in that black thing, yeah, the double R hurts
We walk right in valet the car first
Them other squares be in lime like Starburst
Starvin' to get in then stand at the bar thirst We good, baby, I ain't in need of much
Except a partner, every Starsky need a Hutch
I'm doin' numbers so when a star skate through

I'm a let you see it boy, like Star Eight TwoEasy Star, I ain't on that star ish
 You act up you'll be sleepin' with the star fish
 Food for crabs, you rude to Fab
 You end up bein' that dude they grabSo shut ya big lippers before the Sig rips you
 Put you in that black bag with the big zipper
 It's a group of us we the big dipper
 The dancers on the pole know us as the big tippersSo If I shine you shine, shine
 If I shine you shine
 So If I shine you shine, shine
 If I shine you shine, shineEverybody we gon' party like rock stars
 Then we ball till we fall like all stars
 It's okay we can stay at a five star
 Then we gon' get it on like porn stars'Cause if I shine you shine, shine
 If I shine you shine, shine
 If I shine you shine, shine
 Shorty, I shine you shine, shineAiyo she was in the double C's, I was in the double G's
 We both shining like flawless double V's
 I call her Dee Dee maybe it's the double D's
 Or the Deuce Deuce she be sneakin' in the club with ease
 I take Patron make hers a double pleaseI start trouble, let me touch on the bubble please
 Fuck a lobby asking for double keys
 I got a spot with more rooms than the double trees
 Who was in the Dominican Republic breeze?Losito on the Mojitos
 I'm soul food, spice was so frito
 Being a star player, it is no treat though
 But I shine, I shine shine
 You can shine to son, think I mind?
 Not at all I got a couple of Starbucks
 So either they ice grillin' us or they star struckSo If I shine you shine, shine
 If I shine you shine
 So If I shine you shine, shine
 If I shine you shine, shineEverybody we gon' party like rock stars
 Then we ball till we fall like all stars
 It's okay we can stay at a five star
 Then we gon' get it on like porn stars'Cause if I shine you shine, shine
 If I shine you shine, shine
 If I shine you shine, shine
 Shorty, I shine you shine, shine
