First Class

Kottonmouth Kings

It's time to smoke..
Blaze All Day, Every Day,
Each Way, The Right Way,
My Way, Greenhay, We High,
Been There, Done That,
Big Blunts, Fat Sacks,
Hit It Fast, Make It Last,
First Class, We Blaze...
Shit's all finger licking good when you rollin' through the hood,
Twistin' Lincoln logs are hard so we burnin' up the wood,
'cause i be smokin' drunk drinking weed and pairing skunk,
I like to smoke a bitch and been known to slap a blunt,
Make the crowd jump, people say them kids got styles,
Renting jewels for your videos you frontin' with that smile,
Acting wild but you ain't even skirt in the pit,
Talking shit ain't worth a lick,
You wanna bark then you'll get bit, WOOF!
Blow the roof off like an atom bomb,
D-Loc to Johnny Richter's like ping to pong,
Ain't nothing wrong don't fix shit if it ain't broke,
We ain't no jokes, you know the kings by the size of our tokes, motherfuckers!
Blaze All Day, Every Day,
Each Way, The Right Way,
My Way, Greenhay, We High,
Been There, Done That,
Big Blunts, Fat Sacks,
Hit It Fast, Make It Last,
First Class, We Blaze...
My voice is swayin' people always ask me what I'm sayin',
Playin' shoddy for the women, so I'm smooth operating,
Just ??? and while you're smokin' on the hay ,
And for the peeps who work to keep ???? start your savin',
I keep it clean shaven around four corners,
We warned ya no dank strong enough to hold us,
Like soldiers we fold ya keep our composer,
Roll you in a joint light you up and smoke ya,
Only take so much shwag made me quag and gag,
It's time to smoke some ? so I reached in my bag,

Fix my sac as i pulled out my orange zig-zags,

You know the Kottonmouth Kings the worlds' greatest tag,
Team we gleam I spit poisonous juice,
Abuse microphones let my flow run loose,
Calling out all troops puttin' weight up on the table,
Bring a scale round by round check the soundscan,
Damn D-Loc we the cream of the crop,
DJ Bobby B, Daddy X, and Pak who locks to beats,
Sportin' high top docs, slangin' pounds of pot,
Take from us, better not,
Blaze All Day, Every Day,
Each Way, The Right Way,
My Way, Greenhay, We High,
Been There, Done That,
Big Blunts, Fat Sacks,
Hit It Fast, Make It Last,
First Class, We Blaze...
I got a knack for bud smoke chronic ??,
D-Loc's no joke toke for toke he'll float your boat,
?? down my throat, took off my coat (was it wet?),
It was soaked, (out smoke you?) not really nope,
Sat back and had a coke,
Relaxed and had a smoke,
A little bit of change, some dank, I was broke,
No dollar stretched out felt like a stroke,
Brain transformed like i was on the dose,
I won't do coke I never done roak,
You gotta ring around your nose take a hit off my roach ,
Tryin' to ball like the most try to burnt like a piece of toast,
On the coast to coast, deep in the post,
Got my eyes on my crops watchin' over my gross,
Just daze you a little, damn he's kinda dope,
Blaze All Day, Every Day,
Each Way, The Right Way,
My Way, Greenhay, We High,
Been There, Done That,
Big Blunts, Fat Sacks,
Hit It Fast, Make It Last,
First Class, We Blaze...
