Fool for You

James Durbin

She flows like a butterfly and sings like a bee
And told me it's like BIG
Got me lookin' over my shoulder
I took that dress with good adviceShe flirts with all my best friends
Somehow I never listen
Tell me,what' s it,what's it gonna do?
Still falling while I'm sleeping
She's on the lack of,lack of views
So tell me why,tell me whyYou build me up,up to bring me down
Look at you,look at you baby
You call me in the kitchen to steel my time
Didn't you,didn't you baby?
And I'm just a game that you play with my head,girl
I bet you think you can get away with that
I bet you think you can get away with that
I'm just a fool for you,oh yeahShe makes rules when she's sexy
So tell me why?
Tell me why?You build me up,up to bring me down
Look at you,look at you baby
You call me in the kitchen to steel my time
Didn't you,didn't you baby?
And I'm just a game that you play with my head,girl
I bet you think you can get away with that
I bet you think you can get away with that
I'm just a fool for you,oh yeahCause all I see is you and me and nothing's gonna change
But all I'm trying to say is enough for me
It's enough for me,it's enough for meYou build me up,up to bring me down
Look at you,look at you baby
You call me in the kitchen to steel my time
Didn't you,didn't you baby?
And I'm just a game that you play with my head,girl
I bet you think you can get away with that
I bet you think you can get away with that
I'm just a fool for you,oh yeahYou build me up,up to bring me down
Look at you,look at you baby
You call me in the kitchen to steel my time
Didn't you,didn't you baby?
And I'm just a game that you play with my head,girl
I bet you think you can get away with that

I bet you think you can get away with that
I'm just a fool for you,oh yeah
I'm a fool for you
