Phaser

ESO

I don't even wonder
If they're gonna put me under
'Cause you're here now
And I'm on fireGot no recollection
Of his holy words' infection
Throwin' sparks now
'Cause I'm on fireI come down again, take you in again
There's nothing to regret now
Breathe you in like a cigarette
Now dreamNow dream
Now dream
Now dream
Now dreamEvery time you fix me
When the fascination hits me
And I'm trippin'
Around your headOne more resurrection
After living that rejection
Didn't kill me
Because I'm deadI come down again, take you in again
There's nothing to regret now
Breathe you in like a cigarette
Now dreamNow dream
Now dream
Now dream
Now dream
