

# Letter to Memphis (Instrumental)

## Pixies

The day since I met her  
I can't believe it's true  
She came here from Memphis  
Across the ocean sailing And I saw her and I pleaded  
Why do you come so far?  
And she said, " Trying to get to you  
How I tried to get to you  
Trying to get to you "I'm sending a letter  
I'll send it right to you  
I'll send it to Memphis  
I know that someday Everything I needed and I wanted  
Used to be that my head was haunted  
And all these sirens they make me mad  
And all this violence it brings me down
