

Swan Song (Alternate Version)

Bee Gees

This is my swan song.

Whatever I do now, I do it well.

This is my swan song.

I fell in love with you I love you well.

And if the Lord provides the music for the world around to sing,

My love will build a castle in the air. This is my last chance,

A chance to show the world that I am strong.

This is my last dance.

I'm walking off the floor where I belong. And if the Lord provides the music for the world around to sing,

My love will build a castle in the air. And if the Lord provides the music for the world around to sing,

My love will build a castle in the air.
