

Sunshine And Chocolate

Semisonic

All my life I've been looking for the perfect mate
And when I finally found the one it was almost too late
Underneath the auditorium she showed me why
I could have waited all of my life, for somebody like
Sunshine and chocolate all over me
In my mouth and on my tree
Round my body, under my hat
Sunshine and chocolate just like that
I was alone when I woke up, found the note
It said you surely know how to fuck, but I gotta go
I hope you find someone to take care of and give yourself to
And until I get to kiss you again I wish you
Sunshine and chocolate every day
In your work and in your play
In your mouth and down your back
I wish you, I wish you, I wish you that
Sunshine and chocolate all over you
Over everything you do
On your body and in your mind
Sunshine and chocolate, everything fine
Now my eyes are open wide
As I travel around
Maybe some summer day I'll find
Her face in the crowd singing
Sunshine and chocolate everyday
In your work and in your play
In your mouth and down your back
I wish you, I wish you, I wish you that
Sunshine and chocolate all over you
Over everything you do
On your body and in your mind
Sunshine and chocolate, everything fine
Everything fine
Everything fine
Everything fine
