

# Blue

## Jenny Franck

Blue when someone else is over youâ€”

Blue when she's kissing all I knew

You got your hands all tangled up in two

While someone else is, someone else is

Standing close to youI'm hating everything

You're loving what she brings

I can't decide whether to go

Or stay on the rideI feel blue when I'm the one that's close to youâ€”

Blue when I'm feeling loved by youâ€”

You got your mind on spending time with

The woman next to you

While someone else is, someone else is

Busy hating youWhy do I choose

To stay all tangled up with youâ€”I know the truth

Somebody else is in your fantasy with youBlue when somebody's over you

Blue when she's kissing all I knewâ€”I'm hating everything

You're loving what she brings

I can't decide whether to go

Or stay on the rideWhy do I choose

To stay all tangled up with youâ€”I know the truth

Somebody else is in your fantasy with you
