

The Music I Like

Alexia

Your love is coming into my life

It makes me feel good inside

I need a moment of ecstasy

A feeling higher then highThis is the music I like

This is the music I likeYour love is coming into my life

It makes me feel good inside

I need a moment of ecstasy

A feeling higher then high

I want to live with my fantasy

Dancing into the light

And I can play with my destiny

It makes me feel satisfiedThis is the music I like

This is the music I likeA fire is burning inside of me

Feel the rhythm of life

I need your loving to set me free

I want you to stay by my side.This is the music I like

This is the music I likeYour love is coming into my life

It makes me feel good inside

I need a moment of ecstasy

A feeling higher then highThis is the music I like

This is the music I like
