A Thousand Wild Horses

Blue Sky Riders

Just when I thought
The demons I fought
Were dead and gone
Straight out of the blue
Someone like you
Comes along
I don't have to turn
The ... of my shore
I already know
From the sound
There's a thousand wild horses
Thundering behind me
Hellbend on runnin me down
I thought I was fast
But the sins of my past
They're faster still
And I'm wasting my time
Tryin to leave them behind
Cause I never will
One drink to many
One kiss to deep
And I feel that old shacking the ground
That's a thousand wild horses
Thundering behind me
Hellbend on runnin me downEach one is branded
Each one is mine
Each one's a darkness
I can denie
I know they are coming
There's no place to hide
I'm gonna get runned down
Our I'm gonna ride
Riddin' now
They just a big cloud of dust
But pretty soon
How did something stupid
Like I atent to do
And I let them loose
So if

Your thinking that maybe
That your the one could save me
Baby this ain't no merry
Going arround
It's a thousand wild horses
Thundering behind me
Hellbend on runnin me down
I got a thousand wild horses
Thundering behind me
Hellbend on runnin me down
