

# Let's Kiss and Make Up

## Wilson Pickett

I didn't mean to,  
Start any scene to  
Make you sigh  
Hope to dieIt's most immoral  
For us to quarrel  
Why can't we  
Both agreeDon't you know Ben Franklin wrote about this thing at length?  
On the proposition that in union there is strength?Why raise a storm up  
If we'll just warm up  
The blues will slumber  
We'll have their numberLet's kiss and make up  
Come on, let's wake up  
For I need you and you need me  
Let's kiss and make up  
No use to break up  
When we can live in harmonyI'll give you your way  
You give me my way  
And out the doorway  
Our cares will fly awayIf we be happy  
The way is clear  
Let's kiss, and make up  
No use to break up  
We need each other, dearLet's kiss and make up  
No cares to rake up  
For I need you and you need me  
No reprimanding  
Full understanding  
That we can live in harmonyThe world is prose-y  
When we are fighting  
Lets make it rosy  
By reunitingTwo heads are better  
Than what I hear  
Let's kiss and make up  
No use to break up  
We need each other, dearWhy should we shake up  
A new earthquake-up  
Take the uptake-up  
And soon they'll bake-up  
A wedding cake-up

Let's kiss and make up  
We need each other dear
