

# Love Song

## No Justice

I got a phone call from a friend  
Said you were back in town  
It's been 3 years since you left  
And hell's been coming down  
When you left me, you said you loved me  
But you couldn't stay  
Yeah but, my damned ol' pride got the best of me  
And what I felt were things I couldn't say  
How about one more dance  
A second chance  
To ease my mind girl it won't take long  
Come on and take my hand, a little romance  
How bout a love song I got a radio, I got a TV  
I don't turn them on  
All of my riches don't mean a thing  
Till you're back here in my arms  
Learned my lesson, paid my dues  
And I even tried to settle down  
And I swear this time I'm gonna live for you  
And be the one to make your world spin around  
How about one more dance  
A second chance  
To ease my mind girl it won't take long  
Come on and take my hand, a little romance  
How bout a love song  
Yeah come on and take my hand, a little romance  
How bout a love song
