

# Hitch (2009 Remastered)

## Nothingface

Recite, I feel everything  
Relight my own joy in this, my own faggot fantasy  
T.v. series lightbulb coffin, reborn, skinless nightmare  
No words, only questions, like me, only everyone wants  
Feel this feeling nothing Nothing...do I care  
Brings me...lie to me  
Fucking...happiness  
Can i...hate myself Push me through all closed doors, and I can't find my way  
I want to feel human, and I am what gives it away  
Nothing can be done ugly, I am nothing but send me to my crucifix  
Raping, falling inside out, playing what I used to be  
Would he, collect his own mind?  
My own is not pure and whole, piece this, less is what I am  
Love is a wonderful thing to hate(repeat chorus)
