

Keep Me

[Kim Richey](#)

Save me a place away from all the other clutter
In the back of your mind
Somewhere safe, where distance and the tears won't matter
Don't leave me behind Wherever you go forever
Keep me, yeah, keep me Don't say a word we took a vow unspoken
Thicker than blood
Forget the hurt and every promise bent or broken
What's left is more than enough Wherever you go forever
Keep me, keep me
Close to your heart never let me go In every wind lifts a prayer above a whisper
Turns you around
In everything that makes you laugh out loud
For no good reason that's where I'll be found Wherever you go forever
Keep me, keep me
Keep me, keep me
Keep me, keep me, keep me
