

How Can You Love Me (Remastered)

Ambrosia

Babe, it took a long, long time to get it out this way

Now, that the hurtin's over all I've got to say

(Is) that I know

Sure as I am living

It takes more than forgiving

'cause it ain't been easy

I know you did your best to please meHow can you love me,

After all the years we've tried

After all the tears you've cried

After our love has diedBabe, I've seen some pretty faces everywhere I go

I say now

Maybe I ain't the same person that you used to know

But I know

In my heart I'm livin'

For the love you've given

And the foolish thing about it

Is that I thought I'd live without itHow can you love me

When you know I've been with someone else

And I ain't too happy with myself

But I keep on comin' back around
