

I Need Dollars

Lingo & Marshall Law

verse 1 - LingoIt's Grind Time, I ain't talkin' no battle

I'm tryina' save my G's but not for scrabble

It's no game when you livin' check to check

gotta think like Wu-Tang protect ya neck

see the bottom of the food chain's expectin' less

but I gotta make moves stay fresh to death

Yes, cash rules everything around me

bigger figures, better get counting

see I know what it means to be down and out

but we never quit, not me bowing out

cuz we got a team and when we crowd around

we protect each other, respect my brothers uh

fam first we fight till our hands hurt

I don't work for the man I'm showin' this man's worth

so if you ever need a dollar to share

understand that I got it right here, yeahverse 2 - Marshall LawAyo listen up, I'm sick of livin' tough

so I'm tryina get more dollars than a stripper got

because my rents due and how am I supposed to get thru

this next month when I don't even know my next move

I grab the mic and let loose till my sets through

hopin' I get scouted and prayin' I see checks soon

but with no luck, how am I supposed to hold up

my head high when I live life like a broke fuck

so I roll up hopin' it will ease the pain

but when my high wears off everythings the same

I'm still in debt, a miserable wreck

tryin to get some respect and maybe just a little success

I need dollars, I need I need dollars

so I got my hand out more than E Honda

can you blame me, I'm starting to get angry

save the chit chat now, it's fuck you pay meVerse 3 -

Lingo

I ain't tryina hear you put your two cents in

I'm tryina make my own money like the US mint

to get a sick whip with new fresh tint

the type that turns heads when you step inMarshall Law

As for me I need healthcare, day job or welfare

tax check with a couple thou by next year

whatever it takes till I'm swimmin' in cake

Marshall works too hard someone give him a break EZ
