

Red Line Highway

ZO2

Freedom seekers running at the speed of sound
Black top rangers workin hard to keep you down
Demon speeders tear across the land
Move in to high gear tryin to outrun the man
Rough riders, horsepower hangin on to the reins
On fire, hot wired transmission to the brain
I think Im goin insane(Chorus)
Red line highway, a flash of light kick in the overdrive
Red line highway, gotta make it to the other side
Speedway junkies disciples on a road of rage
Rearview reaper if he gets ya its an early grave
Radar gunners ahhhh
Last lap shootout comin to the end of the line
White lightning fuel injection runnin through my veins
Igniting, full throttle on the devils terrain
Were going down in flames(Chorus)
Aint gonna stop for nothing, I can feel my body pumpin
Gasoline . . . Cause Im a killing machine
A driving superpower, I do a million miles an hour
And theres no way of catching me(Chorus)
