Learn To Live With What You Are

Ben Folds

I know that you're in there
I can see you
You're saying you're ok
I don't believe youAnd now that the gig is off
The spell is broken
The fat lady sung
The president has spokenThese days that you were waiting for
Will come and go
Like any day
Just another day[Chorus]
There's never gonna be a moment of truth for you
While the world is watching
All you need is the thing you forgotten
And that's to learn to live with what you areSo freak out if you wanna
And I'll still be here
Don't call me for years and when you do
Yeah, I'll still be hereI'm not saying the effort is a waste of time - but I
Just love you for the things you couldn't change
Though you've tried
These hours of confusion they will soon expire
Like everything
Does[Chorus]Sometimes
Everything you've ever wanted
Floats above
He's sticking out his tongue and laughing
While everything
Anyone can ever need
Is down below
Waiting for you
To know this
There's never gonna be a moment of truth for you
While the world is watching
All you need is the thing you've forgotten
And that's to learn to live with what you areYou got to learn to live with what you
You got to learn to live with what you
Are
