

# A Love Song

## Incompetentia

Why do people cry when they hear  
The word goodbye in a love song?  
Tears are sure to fall when you know  
They gave it all in a love song  
Somehow two lovers get a chance  
At a beautiful romance  
And you wish it could be you  
?Cause everybody?s needing  
What the singers all are singing  
In a love song  
It can tear you apart ?cause a word  
Can break a heart in a love song  
They say all the things you feel  
And they make it sound so real in a love song  
It seems that everything they say  
Is said in such a way  
That we believe it?s true  
?Cause everybody?s needing

What the singers all are singing  
In a love song  
Each of us know there?s no guarantee  
We?ll ever find love  
And in the songs that we share  
The heartache is there to remind us  
New love brings a thrill and we know  
It always will in a love song  
Happiness can leave but it helps  
If we believe in a love song  
There?s a part of you and me  
In every memory that tells us who we are  
And everybody?s needing  
What the singers all are singing  
In a love song  
And everybody?s needing  
What the singers all are singing  
In a love song
