

Real Talk

Bloc Party

Can we get real for a moment?
You're my one and only friend Watch the sunset from your sedan
Let your hand rest on mine I've lived in every town
But here is where I find home My mind is open
And my body is yours
Show me the sign
Please I was so sure, I was faulty
And not able to love
But then you crept up on me
While I was dreaming
Whispered love into my ear If you're tired
I can drive us
We can go back
To my place My mind is open
And my body is yours
Show me the sign
Please
