Blacklight

Doomwork

Baby, somehow you seem to glow
Take me where history unfolds, whoaI have a blacklight
It makes her radiant
I love my blacklight
My girl's fluorescentSummer of love
One you might have missed
Peace and love and harmony
At a flick of my switchI have a blacklight
It makes her radiant
I love my blacklight
My girl's fluorescentFoxy lady
Come under, get hereI have a blacklight
It makes her radiant
I love my blacklight
My girl's fluorescentI love my blacklight, oh
I love my blacklight, yeah, yeah
