

Can't Hear Nothing

Union Carbide Productions

You try to pay me attention
But I don't know what you mean
You try to pay me attention
While I'm inside a dream
I don't have an opinion
I've got no point of view
You try to pay me attention
But there's nothing I can do So won't you lend me your ears
'Cause I can't hear nothing
My mind is so full of fear
And I can't hear nothing
You better make up your mind
'Cause I don't wanna play it safe
No I don't wanna play it safe You say that you've got problems
I think I've heard it before
You say that you try to solve them
But I can't see what for
Well can you give me a reason
To make me listen to you
You say that you've got problems
But there's nothing I can do So won't you lend me your eyes
'Cause I can't see nothing
I ain't got no advice
'Cause I can't see nothing
It's time to make up your mind
Cause I don't wanna play it safe
No, I don't wanna play it safe
I don't wanna play it safe
No!
Don't wanna play it safe You try to pay me attention
But I can't hear you call
Well my words ain't worth to be mentioned
When you push me against the wall So won't you lend me your mouth
'Cause I can't say nothing
Well, I'm so full of doubt
And I can't say nothing
So won't you lend me your ears
'Cause I can't hear nothing
I'm so full of fear

And I can't hear nothing
