

# After the Fall (David Andrew Sitek Remix)

Norah Jones

I never told you  
About the summer  
Every day was changin'  
Only photographs  
But life goes on  
In your mind so warm  
Out on my own now  
And I like the way it feels  
You couldn't come through  
And I'm too far gone  
After the fall  
Do you still want it all?  
You never told me  
About the winter  
Every day was changin'  
But I remember  
But life went on  
In my mind so cold  
Out on your own now  
Do you like the way it feels?  
Didn't I come through  
You were too far gone  
After the fall  
I still want it all
