

# This Time

## Dive

Let's take this till morning  
Cause I don't want this to end tonight  
Pieces start to fall in  
All the places we missed last time And you can't deny the truth you're not an angel as you claim  
But it's that part of you I crave Don't leave me now  
I'll find the words to make you stay  
I won't let you down this time  
Don't throw this away  
I've made that mistake  
I pay for it every time I hear your name  
Don't leave me now  
I won't let you down  
This time Let's write another ending  
I never wanted to let you go  
We could start from the beginning  
There was so much you didn't know And you can't deny the truth you're not an angel as you claim  
But it's that part of you I crave Don't leave me now  
I'll find the words to make you stay  
I won't let you down this time  
Don't throw this away  
I've made that mistake  
I pay for it every time I hear your name  
Don't leave me now  
I won't let you down  
This time The stars are all in line  
And I've waited all this time  
For another chance with you Don't leave me now  
I'll find the words to make you stay  
I won't let you down this time  
Don't throw this away  
I've made that mistake  
I pay for it every time I hear your name  
Don't leave me now  
I won't let you down  
This time  
Let you down
