

# Redefine

## Sevendust

Just sit down right here in front of me  
I'll let you see  
Connect your face to the fist  
I'll show you what you can be No one to hear all your cries  
No one to hear you beg  
Listen to me, why can't you see?  
You are with me, positioned under me Let you live  
I depend on your will  
Do you see what's running through me? So I'm wrong, I'm not alone  
Seems like you're scared  
You're holding me back again Confused I'll hold all your thoughts from you  
You're close to me  
You hide from your own fears  
Now I'll set them free No one to hear all your cries  
No one to hear you beg  
Listen to me, why can't you see?  
You are with me, positioned under me Let you live  
I depend on your will  
Do you see what's running through me? So I'm wrong, I'm not alone  
Seems like you're scared  
You're holding me back again So I'm wrong, I'm not alone  
Seems like you're scared  
You're holding me back again So I'm wrong, I'm not alone  
Seems like you're scared  
You're holding me back again  
Seems like you're scared  
You're holding me back again
